Dr. Nafise Tharig

Nominee Statement

Kolam Institute of Health Technology (KIHT), which is a Government of India project and also a WHO Collaborator Centre for Health Innovations. It aims to facilitate focused research on critical equipments pertaining to medical devices focusing on health technology, by supporting institutions involved with R&D, industry, policy makers and knowledge institutions. This shall be achieved through transfer of technical knowledge and bringing strategic and coherent synergy of scientific facilities and institutions to complement efforts of industrial partners in the medical device segment. It aims to bring increased access to affordable health products to citizens and a thriving medical device manufacturing sector in India.

It gives the immense pleasure & honor to recommend my senior colleague Dr. Kavita Kuchhal to become IAPB Group 11 Election Trustee. As evident from her comprehensive profile spanning most in the managing and understanding of the governance of organization with full commitment, she has always taken in matters made to run the show to best of her capability. Her vision has been aimed at ensuring quality, safety and affordable health technology intervention for larger hospitalized and under privileged sections of global population. She has served as an asset in health technology space across.
