Re - Nomination for Caroline Casey for President, IAPB

To whom it may concern,

I would like to officially nominate Caroline Casey to serve an additional term as IAPB President. Caroline has successfully served as the IAPB President during this last term and has moved the organization forward in a number of impactful ways.

Caroline's vision of what can be achieved has inspired not only the IAPB team but the entire sector. The IAPB global conferences are now grounded around members taking action because of Caroline's appeal to members and her leadership. For the first time, I'm seeing the sector and members aligned around key focus areas of impact and making real progress.

Additionally, Caroline's track record with igniting the Private Sector is unparalleled and very much necessary for us to be successful. She provides a level of knowledge, perspective and understanding of the Private Sector that is essential to our success.

With the 2026 Global Conference soon upon us, it will be vital to have Caroline's leadership and her presence in making this event as impactful as we envision it. Caroline in this position will be vital to the success of this conference, which we have placed our bets on as being game changing for the sector.

I speak for many affiliated with the IAPB that Caroline is the absolute right person to fight this fight, at the right time and we are extremely lucky to have her as our President and we absolutely need her in this position to achieve our goal that everyone, everywhere will be able to see.

Thank you very much,

A handwritten signature in black ink that reads "Jacqueline Grove". The signature is written in a cursive, flowing style.

Jacqueline Grove
President, 20/20 Q
