

To help spread the word about the launch of The Guide please share the social media posts below on Facebook and Twitter – please include **#DRGuide**.

## Facebook

*Diabetes Eye Health: A guide for Health Professionals* is a new resource from the Fred Hollows Foundation and International Diabetes Federation that aims to raise awareness among health professionals about the growing prevalence of **#diabeticretinopathy** and identifies key roles and actions health care professionals can take in prevention, screening, monitoring, and referral. **#DRGuide**

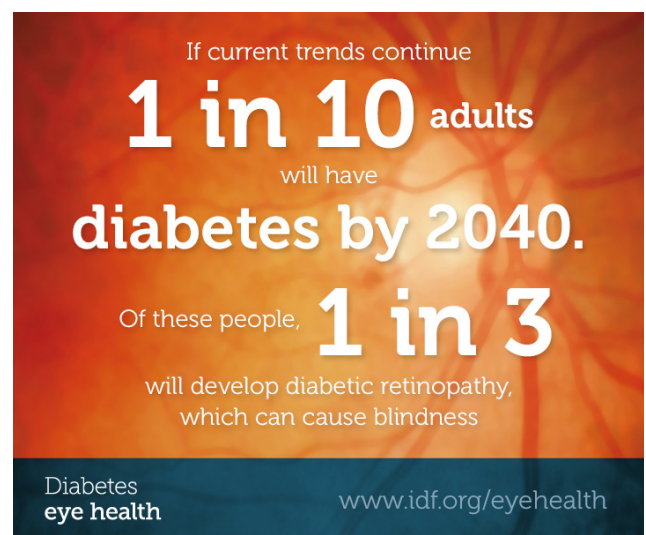

You can download a copy of The Guide by visiting <http://www.idf.org/eyehealth>

We're proud to support *Diabetes Eye Health: A Guide for Health Professionals*, a new resource from the Fred Hollows Foundation and International Diabetes Federation that provides guidelines and advice to primary health professionals to assist them in managing eye health in patients with **#diabetes**. **#DRGuide**

You can download a copy of The Guide by visiting <http://www.idf.org/eyehealth>

The number of people with **#diabetes** is increasing rapidly, if trends continue, at least 1 in 10 adults will have diabetes by 2040. **#DiabeticRetinopathy** is a severe complication of diabetes that can lead to vision impairment and blindness. The Fred Hollows Foundation in partnership with the International Diabetes Federation has produced *Diabetes Eye Health: A guide for Health Professionals*, a new resource for health professionals to assist them in managing diabetic eye health in primary care. **#DRGuide**
